

## Wallbox Pulsar Plus Range

### Combination of compact size and powerful features

Wallbox Pulsar Plus is a practical, intelligent charging system for electric vehicles and plug-in hybrids, which connects to the myWallbox charging management platform using Wi-Fi or Bluetooth. The Pulsar Plus comes with the addition of integrated DC leakage protection as standard. Pulsar Plus is compact and features the most advanced technology to provide maximum charging performance. Pulsar Plus easily adapts to any installation, in private garages or shared parking.

### Charge Points

The combination features make Pulsar Plus the ideal choice for your home. Pulsar Plus comes with an integrated cable and is suitable for every electric car. Choose between 7.4 kW, 11 kW or 22 kW.

### Power Boost Option

Improve your charger intelligence with our dynamic load management solution to avoid blackouts and surprise energy bills. It will measure your home's live energy usage and automatically adjusts the charge to your EV in harmony with your local grid's capacity.
