

EVP Wall Charger

The EVP Wall Charger provides the best, smoothest home charging experience. Its attractive form allows for unobtrusive installation in either your garage or driveway. Additionally, its watertight construction means it can be mounted indoors or outdoors. You can have the peace of mind that your charger will always be functioning and ready, rain or shine.

EVP Features

- AC Fast Charging: 7.4kW(16A) or 22kW(32A)
- Type 2 (IEC) single or three phase charging
- Includes 5m charging cable
- RFID Access Control (Optional)
- Wifi / Bluetooth Connectivity
- IP & IK Rated

EVP App

With our Mobile App, you may monitor the status of your charger and control it remotely from anywhere. The charging may be scheduled to benefit from cheaper rates and it gives you access to your charger's usage and power reports.
